PRESIDENT KILLED.

Abbeville, March 24.—General James

The election of college presidents
is always a matter of importance to them.

TWO FEDERAL ARMY EN ROUTE TO TORREON

Mexico City, March 23.—General Ja-
vier De Muro, commanding 2,000 Per-
uvians, moved on San Pedro, 40 miles
to the northeast of Torreon today,
where it is expected that he will have
the first encounter with the rebels.
Another column under General Hidalgo
is on the way north from the capi-

With the exception of these move-
ments, the war department late to-
day confessed ignorance of the op-
erations in and about Torreon in and
about Torreon. There still is no tele-
graph communication further than
Hilopito, 80 miles from Torreon.

THE REBEL CAPITOL TO BE AT CHIHUAHUA

Chihuahua, March 23.—Homes of rich
Mexicans exiled from their
country by the rebels were stripped
of furniture, bric-a-brac, and costly
decorations today to provide suitable
accommodations for General Carranza,
who on his arrival will be domiciled
in a place afterward to be known as
the provisional capital. It is here the
civil head of the revolution will con-
duct the government opposed to Hu-
erta. The city will be decorated and
church bells will proclaim his pres-
ence.

DEMONSTRATION AGAINST PROVISIONAL PRESIDENT

Mexico City, March 23.—Already
small demonstrations against Pres-
ident Huerta have occurred in main
streets of the capital. The police
tonight fired on a small crowd of stu-
dents who were marching and shouting
"Muera" for Huerta and making
derogatory remarks about the gov-
ernment.

Emboldened by the popular growing
belief that the government forces are
failing to hold back the rebels at Tor-
reon, the students organized a mani-
festation, but no more than fifty of
them had joined the movement when
they were faced by a squad of police
near the Alameda. About forty shots
were fired by the police, who appar-
ently aimed high, as no one was even
hurt.

CONSIDERABLE RENEWAL OF FEDERAL ACTIVITIES

Washington, March 23.—From the
east to the west coast of Mexico little
news reached to the outside
here, tending to show a considerable
renewal of Constitutional activities.
From Tampico Rear Admiral May
reported skirmishes north of Dona Ce-
cilia and firing from the Federal gun-
boat Vera Cruz, guarding the ap-
proaches to Tampico. The inhabitants
at Tampico were becoming armed,
the message said, though condi-
tions were not critical.

Rear Admiral Howard of Mazatlán
confirmed press reports of the revolt
of the Federal governor of Lower Cal-
ifornia, who supported by 200 troops,
had seized the public monies and the
Mexican steamer La Paz.

American Consul Lester at Chihua-
hua reported to the state depart-
ment that Charles D. Elder, an Amer-
ican of Ayala ranch, near Durango,
recently reported killed, passed thru
Chihuahua today on his way to the
border.

ODREGAN WILL BEGIN MARCH SOUTHWARD

Douglas, Ariz., March 23.—The
southward advance of Constitutional
troops under General Odregan will
begin Monday from Navajo, accord-
ing to advice received here today by
Rebel agents.

General Odregan, it is said, planned
to march southward to Tucson. He
expected to have the number in
his command when he reached Guadalupe,
it was reported, where he
looked for strong resistance. It was
also said that General Odregan had
received an abundant supply of arms
and ammunition, with which to equip
recruits he obtains on the way south.

"I'M NOT DRINKING," SAID HE

A Bachelor Incident
At the dining-table in the rats-
skeller eat two men and one was "not
drinking."

"What's the matter?" said his
friend.

"Nothing, Charlie," said the other,
"but I'm going to get some life in-
surance and I've got to travel without
success for a year. The insurance says
I'm inclined to higher trouble, I was
never sick in my life. I thought all
I had to do was to apply for insurance
and get it."

"Take it from me—if you intend to
get any life insurance, get it—don't
foot about it. I have, yourself, a
medicine man, Charlie, and you can tell
the moment they begin to engage in
your shop is running the least bit ragged.
Well, those doctors are the
same way, they're not the instruc-
tions and the tests and they can tell
when your world is running down
before you can ever realize it your-
self."

"There's old Sam Harter coming to-
night. He wanted me just to come
to take the insurance five years ago.
I guess I could have gotten it then
easily enough."

"Well, he's coming to-night. Life In-
surance while you can get it."

"Sweet Thoughts of Home"

I hear the first thrilling notes of the
church organ, and *feel* the doors of the
vestry thrown open;

Shall the music which has been such a
beautiful elaboration of their mating,
cease for them now?

A thousand times, no! Let that music
which has brought them together live
with them throughout their lives.

The Autopiano has its place in every
home. Let it be a part of theirs
of yours.

The possession is so simple a matter!
A small sum as a first payment and
a smaller sum each week, or month,
for a short period, and you are music-
taured forever.
